a new means of finding subjects receptive to, percutaneous method of immunizing animals	276
immunization against, in newborn babies and in infants	273
new approach to the problem of	274
relation of the types of <i>Corynebacterium Diphtheriae</i> to	298
Encephalitis, epidemiology of	346
Goitre, endemic in children	461
Growth:	
and maturity of boys in relation to school-leaving age	442
difficulties in children resulting from overdoses of vitamin D ₂	303
the role of non-glandular hormones in differentiation and	455
Heart disease:	
congenital	646, 679
congenital, clinical diagnosis in	671
congenital, discussion	681, 684, 688
congenital, familial inquiry in 156 cases of	689
Icterus, pathogenesis of the hemolytic diseases of the newborn with special reference to the A and B antigens (Icterus praecox)	599
Icterus neonatorum, the pathogenetic unity of, in the light of recent knowledge furnished by the study of blood-groups	214

	Page.
Kala Azar in China	349
Malaria in childhood	353
Malformation, congenital, induced in rats by maternal nutritional deficiency	223
Mortality, neonatal	167, 174, 188
discussion on	189, 191, 194
Nanism, a variety of, characterized by special difficulties with the metabolism of water	425
Nutrition:	
discussion	128
disorders following gastro-enteritis in children	110
in Greece	120
infants and children of South Africa	83
liver cirrhosis	130
observations on, health and physical development in the British zone of Germany 1946-47	71
pathogenesis of toxic and dystrophic conditions	113
some statistical, clinical and experimental data in Greece . .	100
status in Rotterdam during and after the war	77
subacute subnutritional syndrome in infants	316
the effect of prenatal, on the mother and child	203
Oesophagus, short, in infancy	480
Osteomyelitis, acute, hematogenous, autopsytherapy of	302
Poliomyelitis:	
acute, anterior, treatment (prophylaxis) of	300
eight hundred cases treated in the Sahlin respirator	470
sensitivity of animals to epithelial virus of	347
Preventive pediatrics:	
breast feeding in China	233
construction of a modern children's clinic (Helsinki, Finland) .	264
in Sweden	237
in URSS	247
result of health program for mothers and children	257
Puberty, the pseudobasedow syndrome of	417
Radium. Clinical notes on a case of »Radium Child«	208
Renal function, some recent developments in our knowledge in infancy	481
Rheumatic fever:	383
abstract of the communication	393
essential notions on tuberculo-rheumatic disease	401
in Argentina	395
in Jerusalem and the beginnings of chemoprophylaxis, incidence of .	375
the relationship of, to other fevers of allergic type	361

	Page.
Rh factor:	
and the hemotherapy in the vomiting of pregnancy	607
erythroblastosis and	573
in childrens diseases	221
incompatibility of blood	585
incompatibility of blood, discussion	602, 604
isoimmunization	222
Rickets and Citric Acid	336
Rubella, maternal, as a cause of congenital defects in infancy .	197
Toxicosis, alimentary	621, 625
Toxicosis, alimentary:	
discussion	629, 633, 637, 639, 644
water and mineral exchange in diarrhea	611
Tuberculosis:	
allergy and defence with the antitubercular vaccination by killed bacilli	570
anti-tuberculosis vaccination and its significance in prophylaxis against	493
bronchial occlusion in primary tuberculous infection	544
discussion	553, 554, 559, 568, 569
index of virulence in experimental, in Guinea pigs	557
influence of the genotype on the disposition to	548
prophylaxis and treatment in children	512
remarks on the antiallergical period (Infantile tuberculous primo-infection)	570
streptomycin therapy of tuberculous meningitis	557, 566
vaccination with BCG in Denmark	569
vaccination with BCG in the prophylaxis of	520
vaccination with BCG in URSS	560
vaccination with BCG in U. S. A., comments on	571
Virilism, a case of adrenal	406
Virus:	
discussion	140, 144
infections of nervous system	131
neurotropic infections in Gothenburg	139
primary pneumonitis in infancy	143
respiratory	142
Vitamin K, the value of administration of synthetic, before labor	229

Index of Speakers in Alphabetical Order.

A.

Aballi, A. A. 621.
Adams, J. M. 143.
Aguilar, R. 681.
Anáya, V. E. 695.

B.

Barboza, L. T. 553.
Bartsocas, S. 406.
Bauzá, J. A. 191.
Bergman, R. 470.
Berman, S. E. 342.
Bernecker, E. M. 57.
Biering-Sørensen, K. 644.
Blattner, R. J. 346.
Bosányi, A. 163.
Bræstrup, P. W. 569.
Brandt, S. 490.
Briskas, S. 303, 570.
Brokman, H. 231.
Broman, B. 585.

C.

Castellanos, A. 646.
Cayley, C. 571.
Charokopos, Sp. 221, 298, ~~500~~.
Chattas, A. 520.
Chaudhuri, K. G. 110.
Choremis, C. B. 120, 557.
Chow, H. K. 349.
Chown, B. 602.
Chute, A. L. 411.
Clément, R. 417.
Cournand, A. 679.
Creveld, S. van 332.

D.

da Rocha, J. M. 568.
Debré, R. 425, 534.
Degkwitz, R. 161.
de Toni, G. 573.
Diamond, L. K. 604.
Dods, L. 197.
Dyggve, H. 229.

E.

Ebbs, J. H. 203.
Eckstein, A. 353.
Ellis, R. W. B. 442.
Eriksson-Lihr, Z. 470.

F.

Faber, H. K. 140.
Fanconi, G. 629.
Francis, Th. 142.
Freire, L. 566.
Freudenberg, E. 472.
Frontali, G. 150.

G.

Gaisford, W. S. 165.
Gillman, J. 83.
Giraud, P. 360.
Gorter, E. 633.
Groér, Fr. V. 274.
Guilbeault, A. 554.
Gyllenswärd, C. 174.

H.

Halae, E. 222.
Halbertsma, T. 474.

Halbrecht, I. 599.
 Hanafy, M. 316.
 Hecko, I. 684.
 Helmholz, H. 56.
 Hill, L. F. 692.
 Hurtado, F. 637.
 Hutchison, J. H. 544.

J.

Jammet, M. L. 208.
 Janeway, Ch. A. 144.
 Joncher, K. 512.
 Jonxis, I. H. P. 77.

K.

Kagan, H. 375.
 Kao, Y.-E. 233.
 Keefer, Ch. S. 146.
 Keith, J. D. 688.
 Kerpel-Fronius, E. 611.
 Kurowska, A. 189.

L.

Lamy, M. 208, 689.
 Lelong, M. 480.
 Lenart, C. 214, 455.
 Lenroot, K. F. 63.
 Lewkowicz, K. 401.
 Lichtenstein, A. 237.
 Logaras, G. 100.
 Lozoya, J. S. 242.
 Lust, M. 639.

M.

Macera, J. M. 395.
 Mannheimer, E. 671.
 Maryssel, L. 276.
 Masloff, M. S. 113.
 McCance, R. A. 71, 481.
 Meyer, L. F. 625.
 Monerieff, A. 167.
 Muggia, A. 607.

Osborn, F. 69.

P.

Pagola, J. G. 329.
 Park, E. 697.
 Parran, Th. 58.
 Parsons, L. G. 604. *Perdicologos, 569*
 Plum, P. 93.

Procházka, J. 300.

R.

Ravera, G. P. 557.
 Reuss, A. 188.
 Riis, D. 105.
 Rominger, E. 336.

S.

Sabin, A. B. 131.
 Salvioli, G. 347, 570. *Sarmatas, 569*
 Sarma, A. V. S. 130.
 Sheldon, W. 383.
 Sokolova-Ponamarova, O. D. 461.
 Suárez, M. 165.

T.

Tallerman, K. 393.
 Tour, A. F. 194, 247, 560.
 Toverud, Utheim, K. 257

V.

Vahlquist, B. 273.
 Véghelyi, P. V. 128, 483.

W.

Wallgren, A. 493, 693.
 Waltner, Ch. 302.
 Warkany, J. 223.
 Weber, G. 548.
 Weill-Hallé, M. 559.

Y.

Ylppö, A. 264.
